Kitten Request: Flexibility with colors and gender may get you a kitten sooner. I have a nice variety of color/patterns however, I do not force breed nor do I control mother nature. All kittens are equal on the inside, share similar DNA and my love and care. Your placement moves up with each kitten born and placed with new families. I will contact you when a kitten is available usually when they are 10 weeks. Kittens can go home between 12-14 weeks. If available kitten is not your request, you are not obligated to accept the kitten your placement will remain in order.
